# About Us

- We are a Design and development shop, catering to small and medium businesses globally.
- Aragorn Systems LLC(@ NYC) was born in Aug 2009 and Aragorn System (Indian office @ Chennai) in Nov 2008.
- We make websites, web applications and standalone applications.
- Most of our clients are from USA, Europe and India.

# What we love doing?

- We make static and dynamic website.
- Develop portals, blogs, community sites(social networking sites) and company sites.
- Experts at integrating with api's like google, amazon and ebay.
- We create landing pages, flash, banners and logos for marketing purpose.
- Provide integrating solutions for payment gateways like Paypal, CCAvenue, Authorize.Net, google checkout and NoChex

# Why Us?

- Create professional sites & provide solid support.
- 95% of the clients come back for more.
- We say "NO", when we cannot do it.
- Affordable and fast.
- Provide practical estimates.
- No advance till we see a smile on the designs we create for approval.

# Clients

# Technical Skills

- Open Source Technologies:
  - Content Management Systems like Wordpress, Joomla, Magento and Zencart .
  - Frameworks like CakePHP, CodeIgniter and Zend.
  - Community builder like DolphinPHP
  - PHP and MySQL
- Design skills like Photoshop, Flash, Action Script3 and HTML(including HTML5)

# Our Process

- Understand the requirement > freeze the requirement > Provide a quote.
- On confirmation, we develop the design > Need 50% as advance on design approval. Balance amount on completion.
- Free support for three months to resolve issues.
